

Few people ever find their niche in life—Gord Reineke can count himself as one of the lucky ones. He discovered his passion for vehicles at an early age and stuck with it—being an expert mechanic at South 20 since before it even became South 20. Gord can often be found at car shows all over the province, or at home rehabilitating old classics in his garage. He'd much rather restore a vehicle than destroy it which is what makes him an amazing mechanic—from old school tricks to cutting edge technology, Gord knows his stuff! Is it any wonder he's a Dodge man?

Darrell Sawicki entered the South 20 scene almost 19 years ago as a Shuttle Driver turned Parts Man. His quiet demeanor and constant smile allow him to mesh well with the often boisterous background of the Parts and Service area. Darrell has found a nice balance in life. By day he's our mild mannered Parts Specialist—by night an avid sports enthusiast and Rider fan. On the side Darrell spends his time hunting and fishing—it doesn't get more manly than that!

TALES FROM THE DODGE SIDE...

I always swore that I would never be a van person—no matter what, owning a van seemed like such a mature move, just not my style. Last summer a 2005 Grand Caravan somehow found its way home to my driveway. The logistics were simple—our boys were growing and their 2 hockey bags no longer fit nicely into my Sebring trunk—we needed a bigger vehicle. With a grand Ottawa adventure in the works South 20 gave us a sweet deal we couldn't pass up. Shear numbers showed that it would be more cost effective to buy a van than to buy plane tickets to Ottawa and rent a full size U-haul for everything we needed to bring back. People laughed at us when we told them what we had planned. They

said that there was no way we were going to be able to pull a loaded 6 foot enclosed U-haul through mountainous Ontario with only a van. Suckers. Thanks to stow-n-go seating we had the back of the van full plus the U-haul loaded top to bottom, front to back—by the time we were done packing there was no place to shove anything, not even a blanket. Not only did the van survive the trip with flying colors, but we were passing semis and trucks that were having trouble negotiating some of the steep slopes. I now have a new respect for Grand Caravans. One minute we can be shuttling fans and players to a big game, and the next hauling lumber or reno refuse—our silver beast seems to believe it's a truck

stealthily disguised as a van. I love my van!
